## Level 2 Technical Certificate in Electrical Installation

Location	Stockport College
Course Type	College 16-18
Department	Electrical Installation
Start Date	Tuesday 1st September 2026
Course Code	SFP-BL2C-1100

### Course Overview

---

The Level 2 course aims to give students the basic underpinning knowledge and practical skills required for progression to the Level 3 in Electrical Installation qualification.

Please note that a key component of any full time programme is work experience, therefore we advise students applying for the course to start sourcing out potential industry related opportunities, during their time at college.

### Course Requirements

---

4 GCSE's at Grade 3 or above (including maths and/or English Language).

Applicants will also be required to complete an assessment, which must be successfully finished to a satisfactory standard prior to being offered a place in the course.

### What You Will Learn

---

On this course, both the practical and technical elements will be covered, so you will learn how to perform installation tasks, like installing electrical wires, whilst also knowing the components of the wires and how/why they function the way they do.

## Assessment

---

The completion of a variety of online multiple choice, written and practical assessments strategically planned during the academic year.

## Progression

---

Students who successfully meet the criteria set out in the vocational, maths and English directives, whilst also adhering to the standards of the College's Code of Conduct may progress to the Level 3 Certificate in Electrical Installation course.

## Career Options

---

Electrician, electrical engineer, electrical supervisor

## Mandatory Units

---

Health and Safety in Building Services Engineering

Principles of Electrical Science

Electrical Installations Technology

Installation of wiring systems and enclosures

Understand how to communicate with others within Building Services Engineering

## Contact Details
