## Course Overview

---

This course is for those with a passion for creative technology and media production. It will appeal to filmmakers, content creators, gamers, designers, digital artists, and image makers looking for a dynamic, multi-disciplined Digital Media environment that harnesses breadth and the opportunity for specialised depth also. As such, this course will be of particular interest to those who wish to work within the Creative Media Industry in roles within TV, Film, Graphics, VR, XR and AR, animation and content creation.

## Course Requirements

---

Whilst applications are considered on an individual basis, offers are usually based on a requirement to have:

64 UCAS points from either:

- A L3 qualification in a relevant subject
- GCE A levels
- An Access to Higher Education Diploma

Successful applicants will have 4 GCSEs at grade C/grade 4 or above including Maths and English.

## What You Will Learn

---

You will fuse traditional and digital media to shape new forms of communication. Alongside foundations in cinematography, content creation, audio and video editing, graphic design, and animation, you will explore areas such as virtual and augmented reality. Knowledge of more immersive interactive applications will be beneficial in a rapidly changing field, where the industry now requires multi-skilled digital media practitioners, creative but also competent in a range of technology. Throughout, you will be working with live briefs and embedded industry placements to enrich and replicate 'real-world' experiences and build your employability skills.
