Course Overview

The aims of this course are to introduce floristry with the specific focus to displays that can be used over the spring period.

- To encourage safe and efficient working practices
- Topics will include:
 - Care and conditioning of flowers
 - Principles and elements of design
 - Constructing a range of designs in floral foam
 - Basic techniques for wiring and taping flowers and foliage
 - Designing different styles of arrangements (provided weekly)

Course Requirements

There are no entry requirements, making it accessible to anyone interested in learning about floristry.

Please note - a range of flowers and other items will have to be purchased to attend this course, a list will be provided weekly.

What You Will Learn

Care and conditioning of flowers: This topic will teach you how to properly care for and condition flowers to ensure they remain fresh and vibrant for as long as possible.

Principles and elements of design: You will learn about the fundamental principles and elements of design, which are essential for creating aesthetically pleasing floral arrangements.

Constructing a range of designs in floral foam: This section will cover how to construct various floral designs using floral foam, a common material used in floristry to support and hydrate flowers.

Basic techniques for wiring and taping flowers and foliage: You'll be introduced to the basic techniques for wiring and taping flowers and foliage, which are crucial skills for creating intricate floral designs.

Designing and making a buttonhole: This topic will guide you through the process of designing and making a buttonhole, a small floral arrangement typically worn on a lapel.

Assessment

This is an essentially practical course with no formal assessment. Students will receive constructive verbal feedback each week and will be encouraged to keep a photographic record of their work.

Progression

There are additional horticulture courses available

Career Options

Completing an Introduction to Spring Flowers short course can open up several career opportunities in the floristry and horticulture fields. Here are some potential career paths:

Horticulture or display: This course can lead to roles in horticulture or floral display, where you can work with plants and flowers in various settings.

Floral Designer: You can create beautiful floral arrangements for various occasions.

Studio Operation: Focus on special events, catering, or freelance designing.

Wholesale Florist-Supplies: Sell fresh or silk flowers and decorative accessories.

These roles can be found in various settings, including retail floral shops, event planning companies, and wholesale suppliers.

Mandatory Units

There are no mandatory units on this course.
