## HNC in Civil Engineering

Location	Stockport College
Course Type	University Level
Department	Building Services
Start Date	Wednesday 15th January 2025
Duration	Part-time, 2 Years
Time	08:45 - 16:15
Fee	£ 4000.00
Course Code	SPQ-HC4H-1110

## Course Overview

---

This HNC in Civil Engineering prepares you for a career in the construction sector, by acquiring knowledge, understanding and developing skills that underpin the study of civil engineering. Problem solving is a very important skill, and you will use your critical thinking and analysis skills to apply the UK and EU codes of practice and industry standards learned on this course. The areas of maths and science which support engineering principles will be covered, along with management techniques and subjects that boost your awareness of the economic and commercial context of engineering processes.

## Course Requirements

---

All applications will be considered individual merit, usually based on 64 UCAS points comprising either:

GCE A level

Level 3 vocational qualification in a relevant subject.

Access to Higher Education Diploma in a relevant area.

Successful applicants should have 4 GCSEs at grade C/4 or above including Maths and English.

Mature students with relevant work experience and/or professional qualifications are welcome to apply and may be invited to an interview.

## What You Will Learn

---

You will acquire knowledge of various aspects of the civil engineering field; in particular, in-depth theoretical knowledge of structural design and analysis as well as an understanding of concrete technology. Exposure to setting-out processes and surveying will equip students with the principles of mapping and land surveying. You will learn about the different construction methods that may be adopted on different projects, and you will become familiar with the equipment available to perform on-site work.

Those that choose to progress to HND will have the opportunity to explore geotechnical aspects within the geology and soil mechanics unit, with practical work on sieve analysis and soil shear strength.

## Assessment

---

You will be assessed using a range of methods including written assignments, reports, presentations and undertake some practical activity.

## Progression

---

Students can continue their studies with us and progress to a level 5 HND Civil Engineering, and following this may be eligible to complete a one year top-up degree at Level 6.

## Career Options

---

On completion you may choose to enter or continue in employment, and consider roles such as Construction management, Surveying, Environmental Engineering, Structural Design, Project Planner and Structural Engineer

## Mandatory Units

---

At level 4 you will study:

Construction Technology  
The Construction Environment  
Science and Materials  
Mathematics for Construction  
Surveying, Measuring and Setting out  
Construction Design Project  
Civil Engineering Technology  
Principles of Structural Design

## Extra Costs Involved

---

No

## Exam Validation Body

---

Pearson Education Ltd.

## Exam Validation Body

---

Pearson Education Ltd.

## Hours Per Week

---

6 hours for part-time course or 12 hours for full-time course.

## How Long To Complete

---

Two years part-time with one full day attendance per week, or one year full-time with two full day attendance per week.

## Programme Structure

---

Each unit is worth 15 credits and over the course of the programme you will gain 120 credits

## Contact Details
