Course Overview

Are you passionate about science but need a boost to reach your goals? Our Level 2 Science T-Level Foundation Year is designed to help you build a strong foundation in science and prepare you for advanced study and career opportunities. This program is perfect for learners who are eager to enhance their scientific knowledge and skills while also gaining valuable work experience.

Course Requirements

Grade 3 in English, maths and sciences

What You Will Learn

Course Highlights

Comprehensive Science Education: Dive into the world of science with the AQA Science Trilogy GCSE. This course covers Biology, Chemistry, and Physics, providing you with a solid understanding of the fundamental concepts and principles that underpin the scientific world.

Technical Standards: Learn about the technical standards that govern scientific work. This includes safety protocols, accurate measurement and data recording, and ethical considerations in scientific research.

Hands-On Learning: Our state-of-the-art laboratories and facilities provide the perfect environment for practical, hands-on learning. You'll be able to conduct experiments and engage in scientific investigations that bring theory to life.

Assessment

GCSE science is assessed with exams and the other components vary.

Progression

T Level Science (Lab Technician)

Career Options

Career Preparation: The combination of academic study and practical experience ensures you are well-prepared for further education or entry-level positions in the science sector. This foundation year is an excellent stepping stone to T-Level qualifications and beyond.

Flexible Learning Pathways: Whether you aim to progress to higher education or enter the workforce, our program offers flexible pathways to suit your ambitions. You'll be equipped with the knowledge and skills to pursue a variety of scientific careers.

Mandatory Units

GCSE Combined science
Work experience placement
Employability skills
